

# A PARADIGM SHIFT IN BLOCKCHAIN

We conquer blockchain's issues, enabling compliance for institutions and governments. Our regulatory dedication and biometric security sets us apart, reshaping global business for efficiency and revolution.

We drive blockchain's evolution with Ramz MarketCap, RamzSwap, and PanSEA NFT marketplace. Our rigorous KYC ensures regulatory adherence.

## Unlock Secure and Compliant Blockchain Solutions With MaalChain's Concept Of Identity

Elevate Your Wallet Security and Compliance Today!

### Key Features

#### Enhanced Wallet Security

The MaalChain Concept-of-Identity strengthens wallet security, safeguarding your digital assets.

#### Ownership Identification

Easily identify wallet owners for specific applications, adding transparency and accountability.

#### Regulatory Compliance

Gain the trust of central banks, financial institutions, and government agencies with our regulatory compliance support.

#### Shariah Compliance

Ensure that your dApps and supply chain management adhere to Shariah principles, promoting ethical and responsible practices.

## Introducing Al-Muttaqin Your Shariah Compliance Expert

# AI

### Unlock the Power of Shariah-Compliant Investments with Confidence!

#### Key Features :

##### AI Shariah Scholar:

Al-Muttaqin is your AI Shariah Scholar, backed by 60,000 'Islamic Rulings' from esteemed Islamic institutions.

##### Comprehensive Evaluation

It rigorously assesses projects and tokens listed on MaalChain's RAMZMarketCap for Shariah compliance.

##### Advanced Machine Learning:

Al-Muttaqin uses cutting-edge machine learning technology to provide accurate and reliable evaluations.

##### Shariah-Verified Tokens:

Tokens that meet the Shariah criteria are awarded a prestigious gold 'Check Mark' as verification.

## DAPPS ON IT'S PUBLIC BLOCKCHAIN

### Customized Private dApps

Tailored for government and financial institutions, MaalChain creates bespoke private dApps, perfectly aligning with unique parameters and regulations.

### Accelerate Transactions

MaalChain, a Layer-2 EVM blockchain, accelerates and streamlines transactions while substantially cutting costs compared to other blockchain platforms.

### Seamless Integration

Effortlessly integrate with popular EVM tools and infrastructure, simplifying the deployment of dApps within the MaalChain ecosystem.
